Chemical Hygiene Plan

7/23/2010

Updates:

1. Please print out and keep this plan (or copies) where everyone working in the lab has access anytime they are working.
2. Have all lab workers review the plan and sign on page iii.
3. Add information and update yearly or more often as necessary.
4. To this document include your lab's Standard Operating Procedures.
5. This is a good place to keep a record of all in-lab training sessions.

Responsibility & Accountability

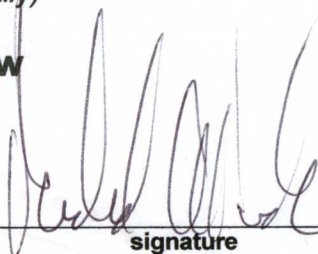

Revised September 2, 2010 (must be updated at least annually)
